BANK OF TIME

STATEMENT OF ACCOUNT

Standard Time Deposit

Soren Voss-Gunnarsdottir
Unit 207, Pallas Ring 10

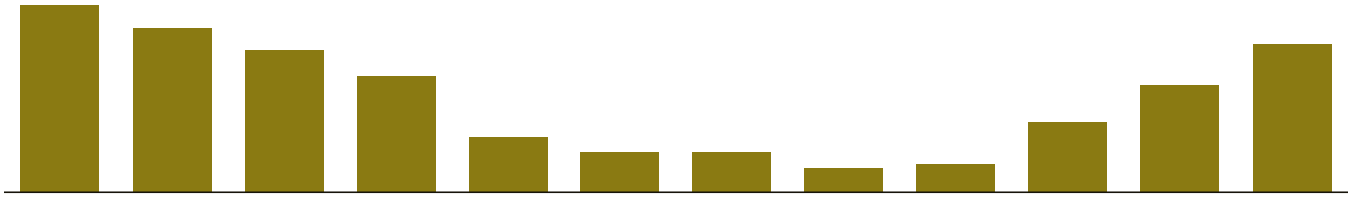

Account 8564-7993-0708
Period 1–31 January 2991
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
133,568,400 s	**+8,510,821 s**	**-259,200 s**	**141,820,021 s**

Date	Description	Amount (s)	Balance (s)
01 Jan	Deposit: Hall E	+7,179,034	140,747,434
	The three-tenths of a second that the envelope held over the whole sum has not been lost. It has been added to your rate for the day, where it will be paid out with interest, as a fraction is paid out in this Bank: slowly, and with its own paperwork. Ref. CIBT-2991-FD59-1		
02 Jan	ATM withdrawal: Tallinn Sector	-259,200	140,488,234
	The machine took 57 minutes to count out 3 Standard days, because it had been told the coins were valuable and counted each one twice. The count was correct, and the Bank has asked the machine to be less thorough without asking it to be less careful. Ref. CIBT-2991-2088-3		
10 Jan	Mech Veterans' Time Pension	+301,272	140,789,506
	The second column shows the interest the Pensions Office reckons on this pension. It was checked against the first column, and the first against your discharge papers, in the order the office prefers and in no other. Ref. CIBT-2991-DD06-1		
14 Jan	Payroll credit: Kepler Ring Hydroponics	+674,333	141,463,839
	You collected the Kepler Ring Hydroponics wage in person on the 14th and were seen to look at it for some time before depositing it again. The credit has been carried over as usual. The officer has noted that you read the figure twice, which the officer takes as a good sign for the employer. Ref. CIBT-2991-DBD9-2		
31 Jan	Interest at 3.20% APY	+356,182	141,820,021
	Audit note: interest on this account was accrued for 29 days at 3.20% and posted once, not every second, because the posting clock at Hall E runs in minutes. The Committee has asked for the seconds to be restored in the next audit, with the interest on them. Ref. CIBT-2991-335C-5

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
