Soren Voss-Gunnarsdottir
Unit 157, Pallas Ring 10

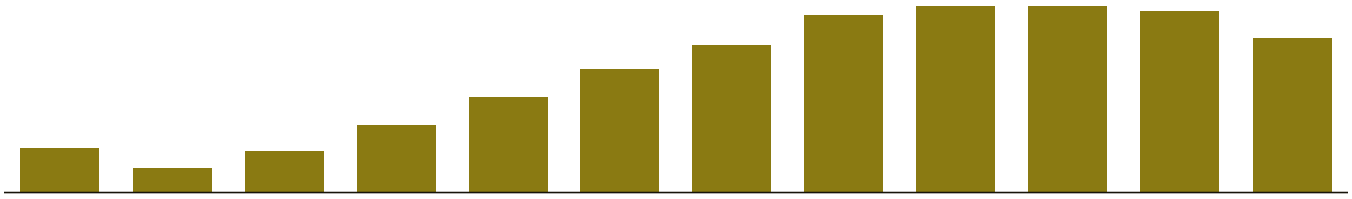

Account 8564-7993-0708
Period 1–30 June 2996
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
132,580,161 s	**+1,346,372 s**	**-7,073,584 s**	**126,852,949 s**

Date	Description	Amount (s)	Balance (s)
01 Jun	ATM withdrawal: Kepler Ring	-86,400	132,493,761
	The Kepler Ring machine prints the local count first and the Earth figure beneath it, in a smaller type, for visitors who have not yet learnt that they are visitors. You have read both and said nothing, which the custodian records as a yes. Ref. CIBT-2996-6675-4		
03 Jun	Transfer to own account: Kepler Ring	-6,727,984	125,765,777
	The conversion to turns was made to four places and rounded to two, which is the rule for sundries between worlds. The rounding came to 0.993 in your favour. Ref. CIBT-2996-5113-0		
12 Jun	Mech Veterans' Time Pension	+318,492	126,084,269
	The pension is paid on Mars in turns, and the Mars office sends its statements by the slower post, so this one describes a month you have already been paid for. The Bank has asked the office to hurry. The office has replied that it is hurrying. Ref. CIBT-2996-A48E-0		
13 Jun	Payroll credit: Kepler Ring Hydroponics	+674,333	126,758,602
	A recurring deduction of 7 d 19:18:53 from the Kepler Ring Hydroponics wage, paid to the Pension Desk in your name, is shown here in full, and the balance is what you were paid. You have asked that the deduction not be netted off on the statement, and it has not been. Ref. CIBT-2996-27AC-5		
17 Jun	ATM withdrawal: Kepler Ring	-259,200	126,499,402
	The Teller at Hall E asks us to record that your withdrawal at Kepler Ring was the last of the morning, and that the machine was tidied afterwards. This is not part of its duties, and it was done regardless. Ref. CIBT-2996-62CC-6		
30 Jun	Interest at 3.20% APY	+353,547	126,852,949
	The Teller says interest is the only money in the building that never asks anyone for anything, and that she respects it for this. The figure is correct, and she has said so before, on other days, in the same tone. Ref. CIBT-2996-7D4D-1		

Closing balance, month by month

Highest 133,666,356 s · lowest 99,522,784 s

July 2995 June 2996

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
