Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
71,641,843 s	**+2,564,674 s**	**-432,000 s**	**73,774,517 s**

Date	Description	Amount (s)	Balance (s)
02 Aug	ATM withdrawal: Callisto	-172,800	71,469,043
	A line on your last statement dated this withdrawal to the day before, because the machine's clock had been set by hand after a fault. It was made on the day shown here. The machine has been set to agree with the branch clock, which took the custodian 31 Standard days and a ladder. Ref. CIBT-3000-1B5E-2		
02 Aug	ATM withdrawal: Callisto	-259,200	71,209,843
	The withdrawal shown on the 2nd was booked a day after it came out of the machine, so its figure has been moved back to the day it was made. Nothing else on the statement has changed, and the difference is shown in the correction column. Ref. CIBT-3000-E9E6-4		
09 Aug	Deposit: Hall E	+1,468,805	72,678,648
	Enclosed with the deposit was a note asking us to stop describing the sum as in transit, since it has been in transit for years and would like to be somewhere. The Bank has entered it as present. Ref. CIBT-3000-829B-4		
11 Aug	Mech Veterans' Time Pension	+230,492	72,909,140
	Asked to sign the receipt where you signed it last year, you did, which the Teller describes as the nearest thing to a family tradition the window has. Ref. CIBT-3000-5842-6		
13 Aug	Payroll credit: Kepler Ring Hydroponics	+674,333	73,583,473
	At Callisto the wages go out before the local calendar is agreed, so the Bank posts them in pencil until the office confirms the date. The date has been confirmed; the Bank has not yet changed the pencil to ink. Ref. CIBT-3000-2103-3		
31 Aug	Interest at 3.20% APY	+191,044	73,774,517
	The interest for the 31st was held 29 Standard days at Callisto, because the local office's printer had run out of forms and the figure could not be set until a new run arrived. The figure was set on arrival, and the interest was paid in full. Ref. CIBT-3000-60B9-0		

Closing balance, month by month

September 2999 August 3000

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
