| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 02 May | ATM withdrawal: Montréal Sector | -259,200 | 87,592,380 |
| | Nils Cardew-Lindqvist says a machine that pays out in whole days is the Bank's way of agreeing that nobody is owed the last second. Ref. CIBT-3012-9BB3-8 | | |
| 05 May | Slippage fee (Montréal Sector, 4 transfers) | -3,600 | 87,588,780 |
| | 4 crossings this period, one of them sent from Hall E at a quarter to the hour, when the relay was quieter. The Bank has no record of anyone else sending at that minute, and has not been asked to find one. Ref. CIBT-3012-BE6A-2 | | |
| 17 May | Deposit: Hall E | +893,053 | 88,481,833 |
| | Credited on the day it was made, then debited again the following Monday, because a clerk read the second page of the slip as a second deposit. The second page was a carbon copy. The debit has been reversed and the carbon has been filed with the original. Ref. CIBT-3012-63C4-2 | | |
| 22 May | Payroll credit: Kepler Ring Hydroponics | +674,333 | 89,156,166 |
| | The audit found 35 credits from Kepler Ring Hydroponics parked in the suspense ledger, of which this was the oldest. It has now been cleared against the firm's remittance and carried to its proper period, and the line is closed. Ref. CIBT-3012-28C9-8 | | |
| 23 May | Mech Veterans' Time Pension | +256,181 | 89,412,347 |
| | The sum for your leave-year was left off last month's pension, because the form for it went to the wrong desk and sat there until the desk's own clerk noticed. The 0.30 seconds have been paid this month, with the desk's apology attached. Ref. CIBT-3012-9806-3 | | |
| 31 May | Interest at 3.20% APY | +234,270 | 89,646,617 |
| | The half-second rule is old: half up on the first working day of the month and half down on every other. This period closed on the first working day, so the odd half-second has gone to you, and the officer has noted it in the margin in pencil. Ref. CIBT-3012-CBE3-1 | | |

## Closing balance, month by month

Highest 89,646,617 s · lowest 51,826,151 s

June 3011 May 3012

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
