Period 1–30 June 3012
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
89,646,617 s	**+2,237,932 s**	**-259,200 s**	**91,625,349 s**

Date	Description	Amount (s)	Balance (s)
18 Jun	Payroll credit: Kepler Ring Hydroponics	+674,333	90,320,950
	The wage from Kepler Ring Hydroponics arrives on the 18th of each month and has done since 3007, in the same sum to the second. An officer at Hall E once suggested the employer post it a day early, and the employer declined on the grounds that it would then be early. Ref. CIBT-3012-BDED-9		
25 Jun	Mech Veterans' Time Pension	+312,089	90,633,039
	The auditors asked for the rate to be shown beside each payment since 3008. It is shown. The rate sheets were kept in the till, face down until they were found, and they show no change, which the auditors have asked to see in its own column. Ref. CIBT-3012-F916-8		
27 Jun	ATM withdrawal: London Sector	-259,200	90,373,839
	The local office at London Sector dates its withdrawals by its own sun, so the 27th on your receipt is a day earlier here. Interest runs from the earlier date, which the local office considers the more polite of the two. Ref. CIBT-3012-5C47-5		
27 Jun	Deposit: Hall E	+1,012,453	91,386,292
	At the Ceres dock the deposit is weighed on the ore scale before anyone counts it, since the scale is the only instrument on the station that nobody has ever argued with. The count followed the weight to the unit, and the dock regards that as the correct order of things. Ref. CIBT-3012-A5B9-9		
30 Jun	Interest at 3.20% APY	+239,057	91,625,349
	The page showing the 30th interest was bound in from a later edition of the schedule, which gives the rate a different place in the table. The schedule has been pulled and the page replaced; the sum stands, and the depositor is asked to keep the later edition, which is correct about everything except the page number. Ref. CIBT-3012-F28A-9		

Closing balance, month by month

Highest 91,625,349 s · lowest 51,826,151 s

July 3011 June 3012

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
