Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
26,437,172 s	**+1,337,533 s**	**-623,960 s**	**27,150,745 s**

Date	Description	Amount (s)	Balance (s)
01 Jan	ATM withdrawal: Bronx Sector	-259,200	26,177,972
	Cash-time withdrawals at Bronx Sector are rounded down to the second, and the machine then rounds the result down again to the whole day. The Bank has asked for one rounding per withdrawal and has been told the machine is only doing what it was built for. Ref. CIBT-3025-396F-4		
02 Jan	Slippage fee (Bronx Sector, 8 transfers)	-2,400	26,175,572
	Query from the audit desk: the 8 crossings on this line were logged by the Bank and counted by the relay, and the relay's count is one greater. The Bank's count stands on the statement, and the relay's is kept on file for comparison. Ref. CIBT-3025-A5C0-5		
03 Jan	Transfer to joint account	-103,160	26,072,412
	The officer observes that when Nils Kowalczyk came in to sign, you had already initialled the slip. Neither of you has said which of you was first, and the officer has not asked. Ref. CIBT-3025-EADC-1		
05 Jan	Deposit: Hall E	+1,166,203	27,238,615
	A query on the 5th deposit: the counter slip was keyed a day late and the machine tape a day early. Both are correct for the branch that keyed them, and the difference has been recorded as the branch's own calendar. Ref. CIBT-3025-2A75-5		
12 Jan	Mech Veterans' Time Pension	+65,582	27,304,197
	Kepler Ring Hydroponics's old unit still appears in the firm's internal memoranda, so the Bank converts your share of the top-up from that unit to days and posts the figure beside the memorandum, for anyone who wants to see what the old figure was. Ref. CIBT-3025-C221-8		
29 Jan	ATM withdrawal: Bronx Sector	-259,200	27,044,997
	A withdrawal written as 259,200 and paid as 3 Standard days is one sum in two forms. The machine's rule and ours meet at the whole day and part there, neither having won the last fraction. Ref. CIBT-3025-4BBA-1		
31 Jan	Interest at 4.80% APY	+105,748	27,150,745
	The officer found the interest 61 seconds larger than the balance that had been reported, and asked the depositor whether the difference was a gift. The depositor said it was the interest, and the officer agreed that it generally is. Ref. CIBT-3025-0DB0-2

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
