Date	Description	Amount (s)	Balance (s)
13 May	Transfer to joint account	-676,153	149,496,027
	Your half of the transfer was carried 28 days by a courier who took a shorter route across the Belt than the one he had been given. The Bank has accepted his account of the shortcut and asked him not to repeat it. Ref. CIBT-3022-52D3-1		
19 May	ATM withdrawal: Montréal Sector	-86,400	149,409,627
	The relay between Montréal Sector and the branch passed this withdrawal on with a note that read "as before". The Bank took it to mean the same instruction as last month, and the withdrawal was carried out on that footing. Ref. CIBT-3022-5F4D-2		
29 May	Payroll credit: Interworld Post	+1,126,921	150,536,548
	The rule rounds Interworld Post's pay to the nearest 49-second block rather than the whole second, so the credit of 1,126,921 came out 49 seconds short of the contract. The contract has been read again. It says "about", and the Bank accepts that. Ref. CIBT-3022-CFF4-8		
29 May	Transfer to own account: Montréal Sector	-3,318,095	147,218,453
	Your sundry charge for days has been paid in a cough-drop tin that is mostly coins, which the Teller has agreed to count and return without ceremony. The sum is 10 units. The container stays at the counter for next time. Ref. CIBT-3022-000F-3		
31 May	Interest at 4.70% APY	+588,174	147,806,627
	Auditors' query: the interest for 8564-8317-9821 was credited for one period to a depositor in Montréal Sector, because of a transposed digit in the account number. The depositor has returned it with the interest that had accrued while they held it, and the auditors have asked the Bank to call this a loan. Ref. CIBT-3022-343D-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
