Date	Description	Amount (s)	Balance (s)
04 Nov	Payroll credit: Titan Methane Works	+7,131,381	1,364,109,069
	The employer's office sent this month's wage 31 days late, explaining that the courier had stopped to help with a wheel. The sum fell exactly on a half-second, and under the rounding rule such a sum goes to the payee, so the half becomes a whole second, which is yours and appears on the credit line. Ref. CIBT-2986-AA93-5		
08 Nov	Transfer to own account: Callisto	-25,068,856	1,339,040,213
	Exact coins, counted on the counter in rows of five, are how your sundries are paid, and the officer has stopped counting them back, on the understanding that the rows are the receipt. Ref. CIBT-2986-DC87-3		
23 Nov	Slippage fee (Callisto, 8 transfers)	-2,400	1,339,037,813
	The Callisto branch keeps a day a little longer than ours, so 8 of your crossings were charged for the difference in cycles. The fee is in the posted rates; the length of the day is not the Bank's to change. Ref. CIBT-2986-7446-0		
24 Nov	ATM withdrawal: Callisto	-86,400	1,338,951,413
	You stand at the machine with your back to the queue until the receipt has printed. The officer has stopped asking you to step aside, and the queue at Callisto has learned to wait. Ref. CIBT-2986-5114-0		
27 Nov	Temporal Health Plan	-37,202	1,338,914,211
	The sample drew this claim. The provider's invoice, the plan's ledger and the member's own copy agree on the number of sessions and disagree by one minute on when the first began, which the auditors have entered as a fact and left at that. Ref. CIBT-2986-D404-7		
30 Nov	Interest at 4.40% APY	+4,975,584	1,343,889,795
	The Teller converted the interest into hours at the counter, which made it look larger, and then into seconds, which made it look correct. She asks that the conversion be recorded as a courtesy to both. Ref. CIBT-2986-AAAB-8
