Date	Description	Amount (s)	Balance (s)
06 Oct	Payroll credit: Titan Methane Works	+7,131,381	412,772,273
	The Titan Methane Works figure was 0.30 seconds below the sum the employer gave us, and the Bank has added the difference back at the posted rate. The rounding clause in your terms says the wage is shown in whole seconds. It does not say which whole second. Ref. CIBT-3000-9091-6		
12 Oct	Temporal Health Plan	-40,202	412,732,071
	Cover on Singapore Sector is written at the local rate, which is higher in the wet season and lower in the dry one. The plan notes both figures and has not chosen between them. Ref. CIBT-3000-B2EF-0		
17 Oct	Deposit: Hall E	+33,472,569	446,204,640
	Audit reconciled this deposit to the Hall E cash book on the 17th. The auditors record that the book was correct, which they describe as a finding they seldom have to make. Ref. CIBT-3000-329C-0		
20 Oct	Memory Vault: box 72-602, quarter	-259,200	445,945,440
	You have opened box 72-602 only on a day that the sub-level calls a Sunday, and the custodian has never once heard you ask which day that is. The Vault records the Sunday and does not dispute it. Ref. CIBT-3000-DECB-5		
22 Oct	Slippage fee (Singapore Sector, 2 transfers)	-1,200	445,944,240
	The Teller has never once heard the relay apologise for a slow crossing, and has never asked it to. She considers the arrangement suitable to both of them and to neither. Ref. CIBT-3000-9D6F-4		
31 Oct	Interest at 4.40% APY	+1,487,349	447,431,589
	Interest is credited at the close of the Pallas Ring 10 day on a schedule set in 2996, and is checked each month against it by an officer who has never needed to. Ref. CIBT-3000-68C1-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
