Date	Description	Amount (s)	Balance (s)
07 Apr	Slippage fee (Mars Station, 8 transfers)	-4,800	755,908,069
	For the auditors: the 8 crossings this month are reconciled to the relay's own log and to ours. The two logs agree on every crossing but one, and the auditors have asked that the one be left as it is. Ref. CIBT-3003-EE7B-7		
08 Apr	ATM withdrawal: Mars Station	-86,400	755,821,669
	A withdrawal that took a second attempt at Mars Station carries no fee. The Bank counts the attempts and not the customer's patience, and charges for neither. Ref. CIBT-3003-5080-3		
14 Apr	Memory Vault: box 72-602, quarter	-259,200	755,562,469
	You come down to the sub-level a few minutes before the quarter closes, and the gate has never yet been opened early for anyone else, though you have been standing at it each time. Ref. CIBT-3003-6C76-8		
17 Apr	Temporal Health Plan	-33,682	755,528,787
	On Titan, a session is billed by the length of the breath taken during it, and the plan has agreed to the method on the understanding that the breaths are counted at the clinic's rate. Your session was 9 breaths long and was paid in full, with one breath carried forward. Ref. CIBT-3003-BF89-7		
17 Apr	Deposit: Hall E	+37,393,293	792,922,080
	Titan Methane Works makes its share of the deposit in the same week as its wages, but it always comes last, folded inside the wrong envelope on purpose, as the clerk puts it, so that someone at the counter has something to do. Ref. CIBT-3003-2747-0		
27 Apr	ATM withdrawal: Mars Station	-86,400	792,835,680
	The notes dispensed at Mars Station came out in the order Titan Methane Works paid them in, which the machine honoured without question. The officer checked the serial numbers against the wage slip; they matched, and the slip has been filed under both names. Ref. CIBT-3003-A2EF-2		
29 Apr	Payroll credit: Titan Methane Works	+7,131,381	799,967,061
	The Titan Methane Works wage for 28 days of night duty was paid at the night rate, which the Bank had to look up on a card kept in the employer's own desk. The card was found, and the rate on it matched the remitter's advice. Ref. CIBT-3003-4F14-1		
30 Apr	Interest at 4.40% APY	+2,771,680	802,738,741
	Titan Methane Works pays a small sum into this account each quarter, and the interest on it is credited the day after, so that the firm can say it has never once been late to the depositor. The depositor has never mentioned it, which the firm takes as the arrangement working. Ref. CIBT-3003-4FEC-6

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
