Date	Description	Amount (s)	Balance (s)
03 Jan	ATM withdrawal: Kepler Ring	-86,400	37,908,439
	You draw One Standard day on the first working day of the month and leave the notes in the envelope marked for the month after, so that the envelope is always one ahead. The officer asks whether the envelope is still needed, and you say that it is. Ref. CIBT-2952-8120-3		
20 Jan	ATM withdrawal: Kepler Ring	-259,200	37,649,239
	You take 3 Standard days from the Kepler Ring machine each Standard week and leave the change in the slot, where it is kept for you until the following week. The Teller has counted the change on eleven occasions and found it correct on each. Ref. CIBT-2952-DA70-6		
21 Jan	Payroll credit: the Ceres Ring Assay Office	+381,778	38,031,017
	A standing credit from the Ceres Ring Assay Office arrives on the 21st of each month, and it has been paid into 8564-8564-3261 since 2951. At each renewal one word on the advice slip has changed: "salary", then "wages", then "pay". The sum has not changed. Ref. CIBT-2952-6C05-2		
28 Jan	Deposit: Hall E	+2,965,356	40,996,373
	A deposit of 2,965,356 was credited against the wrong count, the officer having counted to the figure on the envelope and not the one on the slip. The figure was corrected across both columns, so the two would agree, and both are shown, with the envelope's crossed out. Ref. CIBT-2952-F437-8		
31 Jan	Interest at 4.80% APY	+151,979	41,148,352
	Interest at 4.80% APY, accrued every second and posted at the close of the Pallas Ring 10 day. Ref. CIBT-2952-FCB4-5
