Date	Description	Amount (s)	Balance (s)
09 Aug	Slippage fee (Venus, 5 transfers)	-3,000	54,448,609
	The Venus relay reckons your transfers in days, the Head Office converts them at the posted rate, and the fee is then charged once, in seconds. The two readings are not allowed to disagree, and on this statement they do not. Ref. CIBT-2956-00BA-1		
10 Aug	Transfer to own account: Venus	-2,503,954	51,944,655
	The eleventh credit this year of 2,503,954 is in the same amount as the last ten. The Bank has noticed the pattern and has no objection to it. Ref. CIBT-2956-F8DF-8		
16 Aug	ATM withdrawal: Venus	-86,400	51,858,255
	Withdrawal requests at Venus are rounded to the nearest five seconds before the machine counts them, and an odd request is rounded up by the machine and down by the branch. The machine has been asked to agree with the branch, and has said it will try once the branch does. Ref. CIBT-2956-9835-1		
18 Aug	Payroll credit: the Ceres Ring Assay Office	+381,778	52,240,033
	Reconciled against the employer's ledger on the 18th. The ledger is kept in days and the statement in the Ceres Ring Assay Office's own figures, and the two were brought together by hand, which the auditors describe as slow and correct. Ref. CIBT-2956-E837-5		
31 Aug	Interest at 4.80% APY	+217,806	52,457,839
	Interest on the Lagrange deposit is held in the station's own dark, where it accrues without a clock, and is brought across on the first morning of each period. The rate it earned is the one posted, and nobody has yet found a station that wants the dark back. Ref. CIBT-2956-B0E8-3
