| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 12 Nov | ATM withdrawal: Luna | -259,200 | 61,116,314 |
| | Your pay from the Ceres Ring Assay Office posted after the withdrawal, so the account showed a short balance for 36 minutes. No overdraft fee was charged, since the salary had been sent in good time and the relay was simply slow to agree. Ref. CIBT-2986-EBF0-0 | | |
| 14 Nov | ATM withdrawal: Luna | -86,400 | 61,029,914 |
| | The concourse lights at Luna were dimmed for an hour on the 14th. The machine would not dispense in the dark, as a matter of policy, so your cash was paid when the lights came back. Ref. CIBT-2986-D820-9 | | |
| 18 Nov | Deposit: Hall E | +707,351 | 61,737,265 |
| | Notes on the slip were counted to the nearest whole unit, and the unit was day. The slip had been written in seconds, which the counter converted by a rule of its own, now pinned in the margin. Nobody is at fault, and the total is correct to the second. Ref. CIBT-2986-3271-2 | | |
| 30 Nov | Interest at 4.80% APY | +245,502 | 61,982,767 |
| | Your eye goes to the interest line before the balance, and has done so on every statement since 2985. The branch has taken this to mean that the balance is not in doubt. Ref. CIBT-2986-172C-8 | | |

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
