Period 1–30 April 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
36,709,359 s	**+2,576,611 s**	**-521,400 s**	**38,764,570 s**

Date	Description	Amount (s)	Balance (s)
10 Apr	ATM withdrawal: Venus	-259,200	36,450,159
	A machine cannot dispense cash-time it does not hold: the time for this withdrawal was delivered by courier on the 10th and counted in the presence of two officers, as the Cash Logistics schedule requires. Ref. CIBT-3003-484A-3		
14 Apr	Payroll credit: the Ceres Ring Assay Office	+381,778	36,831,937
	The slip with this pay said that the enclosed sum was not a bonus. The officer checked it, found that it was not, and asked us to say that the slip was the first document from the Ceres Ring Assay Office to be plain about money without being asked. Ref. CIBT-3003-6685-5		
16 Apr	ATM withdrawal: Venus	-259,200	36,572,737
	The machine had been serviced that morning and was recorded in perfect standing, so the standard cash-time rate was applied to this withdrawal, and no other. Ref. CIBT-3003-1CF5-7		
19 Apr	Deposit: Hall E	+2,047,996	38,620,733
	The slip for this deposit was entered at Hall E twice, once from the counter and once from the copy the depositor kept, and both lines showed the same sum. The second line has been struck. The count on the slip is the one that stands. Ref. CIBT-3003-3870-8		
28 Apr	Slippage fee (Venus, 5 transfers)	-3,000	38,617,733
	The statement said the crossings were made in the morning. They were made at Venus in the afternoon of its day, which falls later on the Bank's clock. The fee follows the crossing, and the time has been restated to match. Ref. CIBT-3003-7213-3		
30 Apr	Interest at 4.80% APY	+146,837	38,764,570
	A fraction of a second's interest was held back at the close of the period, because the day-count ended on a holiday at Venus. The fraction is credited in the next period, with interest on it. Ref. CIBT-3003-7591-2		

Closing balance, month by month

May 3002 April 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
