Date	Description	Amount (s)	Balance (s)
11 May	Payroll credit: the Lagrange Four Commissary	+5,808,629	1,519,077,284
	The wages were held 29 days at Hall E while a second officer confirmed the employer's signature, which the first officer found too neat to trust. The second officer found it genuine, and it is the same hand as before. Ref. CIBT-3003-84A4-3		
12 May	Turbulence Cover	-15,808	1,519,061,476
	The surcharge for the Lagos Sector crossing was entered under the morning's date, when the boat sailed in the afternoon. The date has been moved to the afternoon, and the surcharge stays with the crossing it belongs to. Ref. CIBT-3003-9B77-1		
18 May	Transfer to own account: Lagos Sector	-414,856	1,518,646,620
	The sundry charge on this statement is the same as the one on the last, down to the seconds. The Teller asks whether you would like the figure printed in the margin, so that you may check it without reading the rest. Ref. CIBT-3003-93B2-2		
20 May	Transfer to joint account	-3,485,177	1,515,161,443
	The Lagos Sector share reaches 8564-2488-0826 a day after it is sent, because that office counts its day from the dock and the dock has not yet agreed to stop. You do not mind the wait, and Xan Abernethy-Szabo has set the calendar to it. Ref. CIBT-3003-C246-1		
28 May	Slippage fee (Lagos Sector, 5 transfers)	-4,500	1,515,156,943
	Auditors' query: the 5 crossings were logged at Hall E, but the relay logged them as sent from its own bench, which appears on none of the Bank's plans. The auditors have asked for the bench to be drawn in and given a number. Ref. CIBT-3003-CBC6-2		
29 May	ATM withdrawal: Lagos Sector	-172,800	1,514,984,143
	The Automated Temporal Machine at Lagos Sector is the only one on its world that pays in days rather than in coin. Depositors who use it write about it in the visitors' book, usually as though it were a privilege, and the branch has never corrected them. Ref. CIBT-3003-DAC7-3		
31 May	Interest at 3.80% APY	+4,792,017	1,519,776,160
	On the Titan side the interest is counted in the dome's own seconds, which are timed by the lake's clock and run a little cold. The conversion to ours is made at the posted rate, and the temperature is written on the line as a matter of record. Ref. CIBT-3003-11BD-0

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
