| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 05 Jan | Deposit: Hall E | +396,205 | 37,232,750 |
| | The auditors wished to know why the envelopes were counted on a Tuesday. They were counted on the Tuesday because they arrived on it, and the auditors have accepted the Tuesday without further comment. Ref. CIBT-3012-F0D4-6 | | |
| 11 Jan | Turbulence Cover | -21,073 | 37,211,677 |
| | A claim was reduced by 44 minutes because the carrier's first estimate was entered before the delay had finished. The second estimate was lower, and the policy pays on the second; the first has been struck through and left legible. Ref. CIBT-3012-3098-0 | | |
| 15 Jan | Payroll credit: Kepler Ring Hydroponics | +179,819 | 37,391,496 |
| | No conversion fee was taken on this credit. The days were converted at the posted rate, which has carried no fee since it was first posted, and the Bank has seen no reason to start one. Ref. CIBT-3012-D0DA-7 | | |
| 18 Jan | ATM withdrawal: New Orleans Sector | -86,400 | 37,305,096 |
| | The balance printed after your withdrawal at New Orleans Sector was One Standard day higher than it should have been. The machine says it was waiting for the 18th to finish. The balance has been corrected on this statement, and the earlier figure is struck through. Ref. CIBT-3012-8E66-1 | | |
| 31 Jan | Interest at 3.70% APY | +113,579 | 37,418,675 |
| | The interest was posted 31 days after the period closed, because the New Orleans Sector relay was checking a leap it had been told about in writing and had decided to verify for itself. The check was completed on the 31st, and the posting was made in full. Ref. CIBT-3012-FC5A-3 | | |
