Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
1,777,569,038 s	**+147,248,630 s**	**-434,700 s**	**1,924,382,968 s**

Date	Description	Amount (s)	Balance (s)
14 Jan	Payroll credit: Titan Methane Works	+8,559,819	1,786,128,857
	The wages from Titan Methane Works include the allowance for the long shift at Svalbard. It is paid in days, and the employer has asked that it appear on its own line, so that the staff who earn it can find it without a search. Ref. CIBT-3010-3C51-6		
15 Jan	Slippage fee (Svalbard, 3 transfers)	-2,700	1,786,126,157
	The recurring slippage on the 15th transfer to Svalbard is charged in seconds and not minutes, as it has been since 3005. The 900-second difference is the same each month, and the relay has stopped writing about it. Ref. CIBT-3010-6A74-2		
16 Jan	Deposit: Hall E	+133,948,627	1,920,074,784
	The deposit was first posted to 8564-4849-8134, because the slip had been written in the other holder's hand. The hand has been matched against the mandate and the sum moved; the other holder sent a sugared almond wrapped in tissue with the apology, and the amount, 133,948,627, is the one written in yours. Ref. CIBT-3010-C390-9		
17 Jan	ATM withdrawal: Svalbard	-172,800	1,919,901,984
	You use the machine at Svalbard on the way to the Hall E counter, and bring the receipt to be stamped. The Teller now stamps it before you arrive. You have not asked her to, and you have not asked her not to. Ref. CIBT-3010-59CE-2		
20 Jan	Memory Vault: box 88-730, quarter	-259,200	1,919,642,784
	The Teller asks us to say that the box is no trouble, and that she has never once been asked by a box what it would like for lunch. Ref. CIBT-3010-6723-6		
31 Jan	Interest at 3.20% APY	+4,740,184	1,924,382,968
	Interest on the 31st fell exactly on a half-second and was rounded toward whichever holder came next in the register. The officer keeps that rotation in pencil, and this time the pencil was in your favour, which the officer records without comment. Ref. CIBT-3010-E9F9-9		

Closing balance, month by month

February 3009 January 3010

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
