Date	Description	Amount (s)	Balance (s)
02 May	Transfer to own account: Ganymede	-89,764,187	2,167,883,888
	A cheque returned unpaid on the 2nd carried a returning charge, which was posted to the wrong account in error. The charge is yours, as it always was. The cheque was never anyone's to keep. Ref. CIBT-3003-C2D0-1		
13 May	ATM withdrawal: Ganymede	-259,200	2,167,624,688
	The withdrawal at Ganymede stood on the screen for 53 minutes while the machine waited for a second officer's approval. The local office requires one for sums above a figure it does not publish, and once it was given, the cash came out without fuss. Ref. CIBT-3003-5FB8-3		
14 May	ATM withdrawal: Ganymede	-259,200	2,167,365,488
	The posting was delayed 29 days while the machine waited for a relay to pass it a balance, and the relay waited for the machine to ask again. Each believed the other held the figure, which is the usual cause of a delay on this route. Ref. CIBT-3003-E1D4-6		
18 May	Slippage fee (Ganymede, 5 transfers)	-1,500	2,167,363,988
	You arrive at the relay's hatch a little before it opens and wait until the first light falls on the sill, after which you send the transfers in a single movement. The operator has begun to open the hatch on the first light, to save you the wait, and has been told it need not. Ref. CIBT-3003-F3A4-6		
31 May	Interest at 4.90% APY	+9,218,729	2,176,582,717
	Credited in local units at Ganymede, then converted to our reckoning at the rate in force when that local day closed. The rate was not the one you were expecting, and the difference is shown on the line below. Ref. CIBT-3003-1B5A-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
