Date	Description	Amount (s)	Balance (s)
03 Jan	Temporal Health Plan	-22,252	325,795,332
	The plan's premium on the 3rd was paid with a quarterly allowance attached, which the plan's officer describes as an unusual pairing and has not objected to. Ref. CIBT-3003-20F1-5		
10 Jan	ATM withdrawal: Io	-172,800	325,622,532
	Asked to confirm the withdrawal at Io, you gave the same answer twice. The Teller describes this as the only sensible reply the machine has ever been given. Ref. CIBT-3003-BFBE-9		
15 Jan	Slippage fee (Io, 4 transfers)	-3,600	325,618,932
	Every crossing you make is entered in pencil first and in ink an hour later, once the relay has confirmed it. The pencil figures are kept in the file. They have never been wrong, which the officer says is the only thing about pencil the Bank can admire. Ref. CIBT-3003-99F0-0		
21 Jan	ATM withdrawal: Io	-172,800	325,446,132
	The machine misread a signature as a second attempt and debited the withdrawal twice. The officer's log shows the second was refused. The account has been credited the duplicate in full, with the machine's apology. Ref. CIBT-3003-2011-4		
21 Jan	Transfer to own account: Io	-35,462,602	289,983,530
	You pay the sundry in exact coin, counted out on the counter in the order you were taught as a child. The officer checks each one against the next and says nothing, which is how the Bank knows it is being paid properly. Ref. CIBT-3003-D1AE-9		
23 Jan	Transfer to joint account	-2,266,501	287,717,029
	Nothing was wrong with the transfer. The branch was waiting for the holders to agree on the amount, and when they did, on the 23rd, the sum was posted the same afternoon. Ref. CIBT-3003-61A2-6		
31 Jan	Interest at 3.30% APY	+895,998	288,613,027
	On Io the interest is paid in the warm hours, when the vents are quiet enough for the Teller to be heard. The rest of the day it stays in the branch safe under a sulphur seal, which has never been broken for an interest payment, and the officers say they would not like to start. Ref. CIBT-3003-FB8E-9
