Opening balance	Credits	Debits	Closing balance
2,037,692,058 s	**+38,341,786 s**	**-721,654 s**	**2,075,312,190 s**

Date	Description	Amount (s)	Balance (s)
01 Apr	ATM withdrawal: Phobos	-259,200	2,037,432,858
	A draw of 3 Standard days was refused at Phobos for a reason the machine gave in full and in its own words, which are kept in the file. The sum was drawn at Hall E the next morning without difficulty. Ref. CIBT-3003-3BC5-5		
01 Apr	ATM withdrawal: Phobos	-172,800	2,037,260,058
	You have checked the balance on the screen before each withdrawal for 8 years, and each time the figure has been right. The machine has not been told that this is a comfort to you. Ref. CIBT-3003-00A7-4		
06 Apr	Payroll credit: Cloudport Aerostat Lines	+6,086,514	2,043,346,572
	Cloudport Aerostat Lines's pay office keeps the hour of its own bell, which rings 21 minutes before ours. Its wages therefore reach the Bank at the start of a day that, by our reckoning, has not yet begun, and the Bank has accepted them on the understanding that they are on time. Ref. CIBT-3003-8A8D-3		
11 Apr	Memory Vault: box 44-068, quarter	-259,200	2,043,087,372
	Box 44-068: the quarterly rental is split between 8564-9155-4635 and 8564-1061-0781 at your joint instruction, half and half, with the odd second rounded to the box. Ref. CIBT-3003-36EA-7		
14 Apr	Slippage fee (Phobos, 8 transfers)	-7,200	2,043,080,172
	The fee on your recurring crossings is 0.30 seconds each, and it has risen by a second every 30 days, since the relay drifts a little further each day it is left alone. The Bank can only set the relay when the relay asks to be set. Ref. CIBT-3003-E59B-3		
15 Apr	Turbulence Cover	-23,254	2,043,056,918
	Premium for the Europa crossing under the ice, paid in whole seconds at Phobos, where the ice is charged by the metre and the delay by the second. The underwriter says the ice has never asked to be paid. Ref. CIBT-3003-B961-4		
29 Apr	Deposit: Hall E	+26,821,427	2,069,878,345
	You make every deposit in the same proportions, one part to the current account and one part to each of your two savings accounts, and the Bank has learned to split the envelope before the Teller reaches it. The Teller says it is the tidiest sum she has seen since 2998. Ref. CIBT-3003-0297-8		
30 Apr	Interest at 3.20% APY	+5,433,845	2,075,312,190
	The Authority's reference second was adopted in the middle of the period, and the second half of the interest was calculated on it. The first half stands as it was, and the holder was told that the Authority had chosen the switch, which settled the matter for the holder if not for the Teller. Ref. CIBT-3003-2343-2

May 3002 April 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
