Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
664,734,352 s	**+17,227,189 s**	**-93,600 s**	**681,867,941 s**

Date	Description	Amount (s)	Balance (s)
03 Aug	ATM withdrawal: Montréal Sector	-86,400	664,647,952
	The machine at Montréal Sector is the one Cloudport Aerostat Lines uses to pay its staff, so four of your withdrawals fall on the same afternoon. The officer has entered them as a single outing, and the sums have been kept separate. Ref. CIBT-3013-D7E6-5		
08 Aug	Payroll credit: Cloudport Aerostat Lines	+6,086,514	670,734,466
	The Cloudport Aerostat Lines pay reached Hall E in a bundle of envelopes, one for each month since your account was opened. The Teller counted the envelopes and then the sums inside them, and found both correct, which she describes as a rare result on a Monday. Ref. CIBT-3013-4EBB-2		
18 Aug	Deposit: Hall E	+9,368,051	680,102,517
	Coins of mixed origin attract a handling charge. These were all of one origin, and the Teller has entered the waiver in the file under "unusually tidy", the only entry under that heading. Ref. CIBT-3013-EC61-8		
20 Aug	Slippage fee (Montréal Sector, 8 transfers)	-7,200	680,095,317
	The slippage on 8 crossings was charged to an account the Bank does not hold, and the fee has been credited to yours on the understanding that no one will look for the other one. The officer points out that the fee is correct. Whoever held that account has been paid nothing and has not complained. Ref. CIBT-3013-3F9F-7		
31 Aug	Interest at 3.20% APY	+1,772,624	681,867,941
	The interest on your last statement was printed at the Montréal Sector rate and not the Head Office's, because the teller copied the rate from the notice on the wall. The notice has been corrected. The interest has been restated, and the difference of 18 seconds is shown as a credit below. Ref. CIBT-3013-D558-9		

Closing balance, month by month

Highest 1,174,757,377 s · lowest 640,099,641 s

September 3012 August 3013

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
