Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
11,009,142 s	**+44,036 s**	**-501,416 s**	**10,551,762 s**

Date	Description	Amount (s)	Balance (s)
17 Jan	Slippage fee (Kepler Ring, 5 transfers)	-3,000	11,006,142
	Montréal Sector Transit has asked that its own crossings appear on a separate statement, which the Bank has agreed to. The only line left on yours is for the 5 transfers you sent yourself, and it shows 3,000 seconds. Ref. CIBT-3010-06C6-9		
25 Jan	Turbulence Cover	-9,943	10,996,199
	Cover for a single crossing pays in whole turns, so a crossing that was 0.985 of a turn late is not covered. The Bank does not regard this as a fault in the cover. Ref. CIBT-3010-9FE3-3		
27 Jan	Transfer to own account: Kepler Ring	-488,473	10,507,726
	Montréal Sector Transit took its staff loan repayment from this account early, on the 27th rather than the usual day. The loan's officer has confirmed that the early debit was intended, and that the loan is now, in her words, "closer to finished than it was". Ref. CIBT-3010-4B42-6		
31 Jan	Interest at 4.80% APY	+44,036	10,551,762
	You withdraw the interest the moment it posts and put the same sum back by the next morning. The Bank records this and does not discourage it. This month the sum went back in at Kepler Ring, a branch you had not used before. Ref. CIBT-3010-D575-5

February 3009 — January 3010

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
