Date	Description	Amount (s)	Balance (s)
22 Aug	Slippage fee (The Belt, 2 transfers)	-1,200	48,110,002
	When the crossings to The Belt come to an odd number of seconds, the odd second is paid by whichever transfer was sent last, so the last transfer of the day pays for the day. You have sent it last every month since 2996 and have never once remarked on the arithmetic. Ref. CIBT-2997-0EDE-3		
23 Aug	ATM withdrawal: The Belt	-259,200	47,850,802
	Replacing the machine at The Belt on the 23rd changed its unit: the new one counts in shifts where the old one counted in halves. Your withdrawals before and after the change have been converted at the rate of the day, and the total is unchanged. Ref. CIBT-2997-0F06-9		
24 Aug	Payroll credit: Harbourfront Shipping	+214,255	48,065,057
	The credit was held for 30 days while Harbourfront Shipping decided whether a second payment in the same month was a wage or a correction. It decided on the correction, and paid it as one, a little lighter than it had been promised, with a note apologising for the weight. Ref. CIBT-2997-07B7-3		
30 Aug	Deposit: Hall E	+1,462,457	49,527,514
	The seal on the 30th envelope bore a second impression of the same stamp, struck slightly to one side. The auditors have compared it with nothing on file and asked to keep it. The slip agrees with the envelope in every other respect. Ref. CIBT-2997-F5C5-2		
31 Aug	Interest at 4.00% APY	+160,370	49,687,884
	You never read the interest line on the way out of the branch. You read it on the step, in the light, and then come back in to confirm that it still is. Ref. CIBT-2997-2C0C-1

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
