Date	Description	Amount (s)	Balance (s)
05 Aug	Payroll credit: Phobos Drydock	+984,455	89,763,260
	Wages from Phobos Drydock are rounded to the nearest whole day, and where a sum falls exactly halfway the payroll office rounds to the even one. This month's half fell on the even side, which the office calls luck and the Bank calls the rule. Ref. CIBT-2984-5530-0		
19 Aug	ATM withdrawal: Luna	-259,200	89,504,060
	Replacing the machine at Luna on the 19th changed its unit: the new one counts in days where the old one counted in halves. Your withdrawals before and after the change have been converted at the rate of the day, and the total is unchanged. Ref. CIBT-2984-EAA1-3		
20 Aug	Transfer to own account: Luna	-12,069,872	77,434,188
	Each month a sundry of 0.30 s is drawn on the 20th for keeping an umbrella you left at the Hall E counter in 2981. Nobody has come to collect it, and the charge continues on its own terms, which the Bank has never found a reason to change. Ref. CIBT-2984-C91A-3		
23 Aug	Temporal Health Plan	-19,342	77,414,846
	A replacement pair of spectacles was paid for on the understanding that the old pair would not be found, which the plan regards as the normal condition of spectacles. The old pair was found on Luna the following week and has been filed with the claim. Ref. CIBT-2984-2EB2-0		
31 Aug	Interest at 4.80% APY	+355,115	77,769,961
	The interest is correct to the second. The principal it is paid on is held in a ledger the officer has not been able to find, though the balance is in the Bank's books and the monthly figure has never once been short. The officer asks that you not look for the ledger. It is in the building. Ref. CIBT-2984-CCE9-5
