Anouk Bracegirdle
Unit 17, Pallas Ring 10

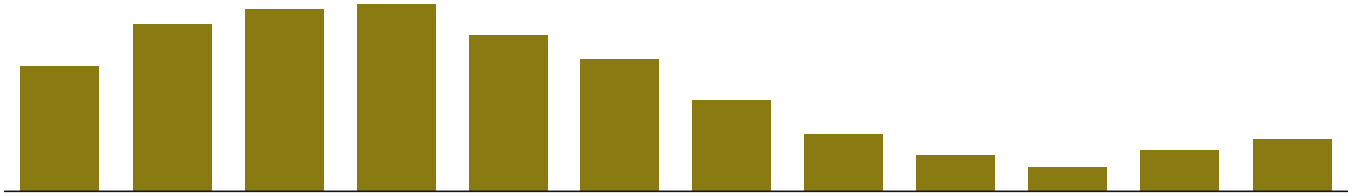

Account 8564-9804-7708
Period 1–28 February 2986
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
70,407,773 s	**+3,131,713 s**	**-360,203 s**	**73,179,283 s**

Date	Description	Amount (s)	Balance (s)
10 Feb	ATM withdrawal: Mars Station	-259,200	70,148,573
	The notes dispensed at Mars Station came out in the order Phobos Drydock paid them in, which the machine honoured without question. The officer checked the serial numbers against the wage slip; they matched, and the slip has been filed under both names. Ref. CIBT-2986-B649-6		
17 Feb	Temporal Health Plan	-14,603	70,133,970
	Monthly premium, paid by standing instruction on the 17th since 2981. The sum has not moved, and the plan says it will not move while the instruction stands, which it calls a promise and not a policy. Ref. CIBT-2986-AF15-4		
17 Feb	Deposit: Hall E	+1,865,627	71,999,597
	Credited on the day it was made, then debited again the following Monday, because a clerk read the second page of the slip as a second deposit. The second page was a carbon copy. The debit has been reversed and the carbon has been filed with the original. Ref. CIBT-2986-813F-3		
18 Feb	Payroll credit: Phobos Drydock	+984,455	72,984,052
	Wages from Phobos Drydock, credited after the wage rule rounded them down to the whole second. The fraction left over, 0.976 of a second, is carried to your next credit and rounded the same way there; it is not lost, and the rule has never said why it is always the smaller figure that wins. Ref. CIBT-2986-6CEB-3		
18 Feb	ATM withdrawal: Mars Station	-86,400	72,897,652
	The Phobos machine is bolted to a rock that passes over the Head Office's relay for only part of each orbit, and it pays out only inside that part. Your withdrawal was made in the window and posted in the next. Ref. CIBT-2986-405C-7		
28 Feb	Interest at 4.80% APY	+281,631	73,179,283
	Interest accrued on the balance while the account was otherwise inactive, which the Bank considers the most useful thing to have happened to it this year. Ref. CIBT-2986-1532-0		

Closing balance, month by month

Highest 108,855,989 s · lowest 65,938,529 s

March 2985 February 2986

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
