| Date | Description | Amount (s) | Balance (s) |
|---|---|---|---|
| 05 May | Deposit: Hall E | +9,725,638 | 175,789,869 |
| | The notes had been kept in a sock at the bottom of a trunk for most of the quarter, and the Teller can smell it. She counts them anyway and writes "aired" in the margin, which is the nearest the window has ever come to an opinion on a holding. Ref. CIBT-2997-B75D-1 | | |
| 15 May | Temporal Health Plan | -23,400 | 175,766,469 |
| | Your premium is drawn in days on the 15th of each month, as the local rate requires, and converted to seconds at the Head Office the same afternoon. The conversion has come out the same every month since 2994, which the plan describes as its only steady measure. Ref. CIBT-2997-D122-6 | | |
| 16 May | ATM withdrawal: Bronx Sector | -172,800 | 175,593,669 |
| | The sum of 2 Standard days at Bronx Sector matches the withdrawal shown on the 16th last year to the note. The auditors have checked both, and the coincidence belongs to the machine, not the account. Ref. CIBT-2997-0A74-9 | | |
| 21 May | Payroll credit: Phobos Drydock | +984,455 | 176,578,124 |
| | Under the Bank's rule for mixed credits, the Phobos Drydock sum and the Tamsin Ostrander sum are rounded separately and then added. The total comes to 0.961 more than if they had been added first, and the Bank regards that as the fairer of two errors. Ref. CIBT-2997-262F-3 | | |
| 26 May | ATM withdrawal: Bronx Sector | -86,400 | 176,491,724 |
| | No slippage charge applies to this withdrawal. The money was drawn at Bronx Sector and posted at the branch, and the Bank does not charge for the distance between the two, which it has measured as 36 seconds on foot. Ref. CIBT-2997-209E-3 | | |
| 31 May | Interest at 4.80% APY | +664,256 | 177,155,980 |
| | The sum was kept in a jar of buttons for 2 periods, and the interest, which knows nothing of hiding places, found the balance there and credited it on the usual day. Ref. CIBT-2997-CC3D-2 | | |

## Closing balance, month by month

Highest 177,155,980 s · lowest 133,728,132 s

June 2996 May 2997

*Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.*
