Period 1–31 May 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
168,564,991 s	**+1,658,714 s**	**-9,028,641 s**	**161,195,064 s**

Date	Description	Amount (s)	Balance (s)
02 May	Temporal Health Plan	-37,616	168,527,375
	Phobos Drydock pays the premium for its staff on the Plan, and your share is shown here. The Plan asks that the figure be read as a gift from the employer, which it is, in part, and in part a reminder. Ref. CIBT-3003-F8D3-3		
09 May	ATM withdrawal: Mars Station	-86,400	168,440,975
	The machine misread a signature as a second attempt and debited the withdrawal twice. The officer's log shows the second was refused. The account has been credited the duplicate in full, with the machine's apology. Ref. CIBT-3003-3F7C-1		
11 May	ATM withdrawal: Mars Station	-172,800	168,268,175
	The officer on the concourse says the machine at Mars Station has never once given back the exact amount requested, and that you have never once asked it to. Ref. CIBT-3003-CD70-6		
23 May	Payroll credit: Phobos Drydock	+984,455	169,252,630
	The wage was converted from sols at the posted rate, and the conversion was rounded to the nearest whole second, in the Bank's favour by 0.956 of a second. The Bank has decided not to claim it, as it is too small to be worth the paperwork. Ref. CIBT-3003-4C5A-5		
30 May	Transfer to own account: Mars Station	-8,731,825	160,520,805
	A sundry of 8,731,825 from Mars Station came in sols and was converted at the local rate, which was posted in the morning and withdrawn by the afternoon. The morning's rate stands; the officer says the afternoon was for the local office to deal with. Ref. CIBT-3003-875F-2		
31 May	Interest at 4.80% APY	+674,259	161,195,064
	Audit note: interest on this account was accrued for 29 days at 4.80% and posted once, not every second, because the posting clock at Hall E runs in minutes. The Committee has asked for the seconds to be restored in the next audit, with the interest on them. Ref. CIBT-3003-8A4E-0

June 3002 May 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
