Opening balance	Credits	Debits	Closing balance
104,226,505 s	**+1,401,361 s**	**-4,227,444 s**	**101,400,422 s**

Date	Description	Amount (s)	Balance (s)
12 Jul	Transfer to own account: Mars Station	-3,856,265	100,370,240
	The Mars Station transfer desk takes sundry instructions only in sols, so this sum was converted twice: once at the window and once at the Head Office. The two results were a second apart, and the second has been retained by the Bank. Ref. CIBT-3018-C16D-2		
15 Jul	ATM withdrawal: Mars Station	-86,400	100,283,840
	At Mars Station the machine asks for your name in the local language and then in ours. It dispensed 0.940 sol, and the balance went out in our seconds, both figures appearing on the line. Ref. CIBT-3018-65CA-3		
16 Jul	Slippage fee (Mars Station, 3 transfers)	-900	100,282,940
	You fold the slip once, lengthwise, and slide it into the back of the passbook without reading the total, as you have done every month since 3013. The officer reads the total for you and then folds the passbook back, so that each of you has done one half of the job. Ref. CIBT-3018-20E8-7		
17 Jul	Payroll credit: Phobos Drydock	+984,455	101,267,395
	The receiving charge on the Phobos Drydock wages has been waived for a second look at the remittance advice. The advice agreed with the credit on the first reading, which the Bank records as the usual result, and the employer has been asked to send the advice once, not twice. Ref. CIBT-3018-70AA-7		
22 Jul	Temporal Health Plan	-24,679	101,242,716
	The handling charge on this claim came to 0.986 of a sol, which the schedule rounds to nothing, and the plan has been obliged by its own rules to say so in writing. Ref. CIBT-3018-A816-8		
27 Jul	ATM withdrawal: Mars Station	-259,200	100,983,516
	Withdrawals at the Titan branch are paid in Titan hours, which run long, and the machine rounds them to the nearest Standard hour. Your 0.957 was rounded in your favour, which the machine calls a policy and the custodian calls a habit. Ref. CIBT-3018-1B35-3		
31 Jul	Interest at 4.80% APY	+416,906	101,400,422
	The duty officer checked the interest against the depositor's own pencil figure, found the pencil one second high, and suggested the depositor keep it as a memento of a sum that was almost right. Ref. CIBT-3018-4895-2		

Closing balance, month by month

August 3017 July 3018

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
