Period 1–31 January 3003
Branch Hall E, Pallas Ring 10
Clock Pallas Ring 10 local

Opening balance	Credits	Debits	Closing balance
16,311,948 s	**+765,052 s**	**-438,300 s**	**16,638,700 s**

Date	Description	Amount (s)	Balance (s)
02 Jan	Slippage fee (Phobos, 7 transfers)	-6,300	16,305,648
	A crossing from Hall E to the Ceres relay is charged at the Ceres day, which is shorter than yours, so 7 crossings in one of your days are billed as 21 days' worth. The Ceres relay has not been consulted, and has not asked to be. Ref. CIBT-3003-503B-6		
04 Jan	Deposit: Hall E	+547,912	16,853,560
	The auditors confirm that this slip carries two signatures for one sum, one for each half of a split deposit, and that the sum was one deposit, as entered, and not two. Ref. CIBT-3003-976C-1		
09 Jan	Payroll credit: Harbourfront Shipping	+166,845	17,020,405
	A wage that falls exactly on the half-second is rounded down by the firm and up by the Bank, and the 5 seconds of difference go into a small tray in the vault marked for later. The tray has been there since 2999 and has grown a little by interest. Ref. CIBT-3003-1331-8		
09 Jan	Memory Vault: box 26-543, quarter	-259,200	16,761,205
	A recollection in box 26-543 was pulled for inspection on the 9th and not returned until 31 days later, when the lamp in the reading room was replaced. The custodian reports that the memory was not disturbed by the wait. Ref. CIBT-3003-93DB-0		
12 Jan	ATM withdrawal: Phobos	-172,800	16,588,405
	The Automated Temporal Machine at Phobos is the only one on its world that pays in sols rather than in coin. Depositors who use it write about it in the visitors' book, usually as though it were a privilege, and the branch has never corrected them. Ref. CIBT-3003-5BF4-9		
31 Jan	Interest at 3.70% APY	+50,295	16,638,700
	The rate is the same as last year's. The Teller would say so if it had changed, since she is the only officer at the branch who reads the posted notices all the way to the bottom. Ref. CIBT-3003-D92D-1		

Closing balance, month by month

Highest 16,638,700 s · lowest 13,028,163 s

February 3002 January 3003

Balances accrue every second of every day by the Standard clock and are shown in Standard Galactic Seconds. Transfers between branches whose clocks disagree carry the slippage fee shown in the Daily Slippage Report for the day of transfer. Deposits are insured by the Temporal Deposit Insurance Corporation up to 10,000 years per depositor, per epoch.
